Shadowsight2008

can't believe I got yelled at for journaling last night, it wasn't even that late

7 minutes ago

zoom234b3

@Shadowsight2008 what time was it

7 minutes ago

Shadowsight2008

@Shadowsight2008 of course, I wasn't really journaling, i was shaving my legs (idk what they'd do if they found out) so journaling was a good cover-up

6 minutes ago

lighteyecodes

@Shadowsight2008 that's not very nice of them journaling honestly is good to do even if its late.

6 minutes ago

Shadowsight2008

@zoom234b3 i usually go to bed around 10:00 or 10:30, it was 11:00 but I've done that dozens of times before

5 minutes ago

zoom234b3

@Shadowsight2008 I was up till 4 in the morning last night

DapperSasquatch
I remember when I started scratch and there was a never forget memorial project (of a certain event that had a number, a slash, and 2 numbers) I made the mistake of saying that spongebob caused it because his teeth looked like the target of this terrible day and his name matched up with the numbers of the date (spongebob = 9, squarepants = 11), I feel so so bad and cringed remembering this.

Branch • Finding Scratch User Project Lists - Google Gemini

Gemini Flash

Here is the plan to wire it seamlessly:

1. **Add** `StudioCommentParser` to map the gallery HTML.
2. **Extend** `fetch_comments()` to handle `mode == "studio"`.
3. **Add** `[S]` **keybinding** in `main()` to switch modes and prompt for a Studio ID (defaulting to `5338610`).
4. **Update the Header & Footer** to reflect Studio Mode cleanly.

Here is the complete, fully merged, production-ready script:

Python

```
#!/usr/bin/env python3
import curses
import urllib.request
import urllib.error
import json
import sys
from datetime import datetime
from html.parser import HTMLParser

HEADERS = {"User-Agent": "Mozilla/5.0 (X11; Linux x86_64)"}

def fetch_data(url):
    req = urllib.request.Request(url, headers=HEADERS)
    try:
        with urllib.request.urlopen(req, timeout=5) as response:
            return response.read().decode('utf-8')
    except Exception:
```

Ask Gemini

Gemini is AI and can make mistakes.
